In Washington city, at a quarter before 11 o'-clock, on Friday morning, the 7th instant, (the anniversary day of her birth,) after a long and painful illness, aged fifty-five years, Mrs. ELIZA-BETH MARY FENDALL, wife of Philip R. Fendall. Her death lays on her family a burden of grief too heavy for their unassisted strength to bear, and will fill with tender regret a large circle of connexions and friends, to whom her kind and generous nature, her elevation of character, her conscientious performance of all her duties, her genius, and her cultivated taste, had made her the bject of their esteem, affection, and admiration. The funeral will take place at 112 o'clock on Tuesday, the 11th instant, from the family residence, corner of 4½ street opposite to the City Hall, whence her remains will be taken to Alexandria, Va. The friends of the family are requested to attend.

On Thursday night, the 29th of September, at his residence, near Winchester, DAVID HOL-LINGSWORTH, in the 70th year of his age, having been born the 24th of December, 1789. Mr. Hollingsworth was a prominent citizen of Frederick county, and at the time of his decease was a member of the Board of Directors in the Bank of the Valley—an evidence of the esteem in which his business integrity and capacity was held. Few men, occapying a similarly conspicuous station, lived a more unobtrusive or unassailable life.

On the 9th day of September, 1859, at the residence of her husband, in Culpeper county, Mrs. ANN M. LEWIS, consort of Capt. John Lewis, aged sixty six years and eight months. This ex-cellent lady was baptized into the fellowship of the "New Salem" Baptist Church, by Eider E. New York Politics.

By degrees, the actors in the disturbances at the Democratic Convention at Syracuse are beginning to give a history of their motives in going there and what they had a "hand Cornelius Wood, who pushed Mr. Stryker, the chairman of the "Softs," from the platform, says he thought it was Mr. Alvord he was about to displace, not knowing one from the other. "He went to that Convention as a politician to participate with others in the excitement which always exists at such places." And, further, he "supposed he was aiding the Cagger side of the question in what be did." He received a ticket to the Convention from a person opposed to Mayor Wood declares "that he is not a Wood man, Christmas." and that he holds an office under the Gener Government." He says that Captain Rynders (Marshal of the Southern district of New York) commenced the row by threatening to beat some of the New York delegates. This is the way "free government" is carried

ENGLAND AND CHINA.—The first blast from the English journals, breathed nothing but war and subjugation for China, for its treachery towards the English. But there is a marked change in the tone of the papers since then. Some of them even say that the disaster could have been avoided by less precipitation and less display of arrogance by British functionaries. The London Times expresses doubts whether it was desirable as a diplomatic measure to use force at all, and the Manchester Guardian says the English were the aggressors. With these opinions prevailing, it is not so certain that England will take upon herself the somewhat onerous task of trying to subjugate three hundred millions of people, for the purpose of "opening the country to the blessings of civilization and Christianity."

Down on the Tract Society .- At the Oneida County Republican Convention, after the nominations were made, Hon. Roscoe Conkling, member of Congress from that District, was called on for a speech, and, as reported by the local papers, "spake of the necessity of this State going Republican, in order to make Mr. Seward the nominee for President next year-against the acquisition of Cuba, and pitched into and denounced the American Tract Society." This may be an appropriate and legitimate subject for political debate, and we shall not be surprised to hear of Mr. Conkling making a speech in Congress against the Tract Society. It is in accordance with the Seward irrepressible conflict doctrines, which we suppose Mr. Conkling fully endorses .- New York Journal

Business in Mutton .- An Albany paper in speaking of the business done there, gives the following statistics of one concern.

Last season Capt. McGraw slaughtered \$1,250 sheep, which averaged \$4 per head, making a total of \$324,000. He paid for dressing, six cents per head, \$4,875; cartage by his own teams, \$2500, and a corresponding amount in New York; commission for selling 121c. per head, \$10,156. The tallow and pelts are sold here, the former bringing on an average 37 tc. per head, amounting to \$30,468 75, and the latter, \$1,50 each,

John Kettlewell, Esq. 10-10 Sir: -I bromised to give you a candid statement of Dear Sir:—I promised to give you a candid statement of the result of the use of your Manipulated Guano on my crops of this year. The result of the wheat harvest in Eastern Virginia, as you know, was anything but satisfactory. I think it due to you, however, to state, that my crops were quite as good, I might perhaps say, with truth, better, than those of my neighbors. I used your Guano principally, and in small quantities, in various ways. I am satisfied that the yield of grain was quite as large, indeed larger than from many fields in the neighborhood dressed with Peruvan Guano. The senson was very unfavorable for tertilizers, and probably most so for Peruvian Guano, which forced the wheat forward, and caused it to encounter

PRINCE GROUGE'S, August 25, 1859.

JOHN KETTLEWELL, ESQ.

Deary Sign.—I received your note some time since, asking a word from me in reference to your Manipulated Guano, I have to say, that I have used it upon wheat, outs, and tooccos, somewhat extensively, and in ail cases an satisfied with the cesuit, and shall use it so long as I obtain the same good results. I have not experimented with it as compared with other Guano that I have used, tait am better pleased with the results of yours than any other that I have used. My wheat and outs, where it was applied, ripened beautifully. The last sowing (with your Guano) was harvested before the early without Guano—the straw light and grain and. The tobacco ahead of that alongside on better land. Respectfully yours.

WM. D. BOWHE. The toracco. Eespectfully yours,

WEST RIVER, July 24, 1859.

John Kettlewell, Esq.

Dear Sirs—The effect of the Manipulated Guane, No. 1, procured from you) on tobacca, has been so marvellous, that I consider it my duty to voluntarily furnish you with that I consider it my duty to voluntarily furnish you with this statement.

I bought last Spring only 1½ tons of it, to apply to a few knolls in an otherwise rich field—capable, in good seasons, of producing 30 bushels of whoat, or, on stubble, 1,000 bo of tobuses, per acre. There were, however, a few spots so poor, that I left convinced they would not pay for the labor of cultivation without being enriched. I therefore applied to them about 1300 fbs. of your mixed Gianos to the acre, broadcast, and plowed it before laying off. The plants in these spots stood remarkably well, and seemed to grow off almost immediately after being set, and have continued, up to this there, for chead of all other portions of the crops so marked is their superiority, that the eye at once traces the extent of the application of the fertilizer; and it would be worth your while to come down and see for yourself. I am satisfied that I should have profited by a similar application to the entire field, especially as, from former experience, I have a right to anticipate a most beneficial result from its use on the succeeding crops of wheat and clover.

Kespectfully, your obsiderd servant.

GEORGE W. HUGHES.

ROCKVILLE, August 25, 1859. MR. Jones KETTLEWILL Mg. Jony Kyrtiawial. Sir_2 —I purchased of you a quantity of your "Manipula-ted Guans" last Fall, for my wheat crop and drilled in on-of my fields 100 pounds to the acro, and I think I have made 30 bushels of wheat to the acre. I used through the centre 30 bushels of wheat to the acts. I used intesting the centre of the field, No. I Peruvant Guano at the same rate, and the wheat on this part is no latter than on the other. I had turned in a heavy crop of clover. In another field, or out stabile, I drilled in 1.50 pounds of the Manipulated Guano to the acre, and I think the yield of wheat to the acre will be 30 bandiels. I shall use your Guanothis Fall. Yours most truly. W. VIERS BOUIC.

CELEBRATION OF THE OPENING OF THE O. AND A. As the Railroad Company will have to take the initiatory steps in the matter, it is proposed that they signify their intentions as soon as practicable.

JEWISH CELEBRATION.—The day of atonement was observed by the Israelites of this place last week, commencing on Friday at sunset, and ending at sunset on Saturday, during which time all their places of business were closed, and the different congregations were occupied with religious services. The day we understand was kept also as a rigid fast day. There is some little difference we believe in conducting the religious services between the modern Jews; one part of them using the Hebrew and the other the German, or whatever their native language may be. These last are we believe called reformers or progressives. To a reflecting Gentile, the sight of a religious assembly of these people is very interesting. Here we have the remnant of a once renowned nation, firmly adhering to the customs of their fathers, which they have preserved amidst the greatest afflictions and calamities which ever befel a people.

COUNTY COURT-SIXTH DAY .- An election for a Justice of the Peace for the 5th district to fill the vacancy occasioned by the death of W. T. GREEN'S MANSION HOUSE .- We had the pleasure, a few nights since, of sleeping in one of the rooms of the new addition to this popular Hotel. It was really a luxury .-Imagine a weary traveller stretched upon a clean, comfortable bed, on a mahogany bedstead, in a large elegant room, 14 feet pitch, windows from ceiling to floor, fine carpeting, murble top centre table and bureau, cushioned rocking chair, &c., &c., and you have some idea of the sleeping arrangements of Green's Mansion House. Some of the rooms set apart for families, are still more elegantly furnished, and open into adjoining rooms, for the use of children and servants. Add to this the neat and abundant table, supplied with the best of every thing, the prompt attention of servants, and the obliging and gentlemanly deportment of Messrs. Stuart and Gregory, and you have as good an idea of the house as you can have without trying it in person. It has no superior, in the South, as far as our knowledge extends .-Some evidence of its growing popularity may be drawn from the fact that, on both the nights which we passed there, last week, there were over one hundred lodgers .- Blue than ever before sold in Washington.

COMPANY. ALEXANDRIA, VIRGINIA. CAPITAL OVER 350,000 DOLLARS, AND CONSTANTLY INCREASING. The Charter of this Company offers more favorable advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium n eash, or by effecting a cash insurance for two years, the insured saves one eighth of the amount would otherwise have to pay; or by becoming a

member, and giving a small premium note, the in-

sured saves nearly one-half of the amount charged

by Stock Companies, when insuring from year to

year. This is the advantage resulting from the CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policies against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand seven hundred persons have insured and become members of the Company, and over seventy thousand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering prospects of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually

chosen by the insured and the Company. DIRECTORS: H. W. Thomas, T. B. Robertson, James T. Close, Thomas T. Hill, Edward Sangster. Dr. R. H. Stabler, W. D. Massey, Christopher Neale. R. H. Carter, P.
